RESPONSE TO RESTRICTION REQUIREMENT

ASSISTANT COMMISSIONER FOR PATENTS  
WASHINGTON, D.C. 20231

SIR:

In response to the Restriction Requirement dated November 4, 2002, Applicants provisionally elect with traverse Group I, Claims 1-9, 18-26 and 35-60, directed to a method and system of assembling an optical module comprising the steps of measuring an outgoing angle of light. Applicants make this election based on the understanding that Applicants are not prejudiced against filing one or more divisional applications that cover the non-elected claims.

Applicants traverse the outstanding Restriction Requirement as the outstanding Restriction Requirement has not established that an undue burden would be required if the

• Restriction Requirement was not issued and if all the claims were examined together. More particularly, MPEP §803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to independent or distinct inventions.

In the present application no undue burden has been established if each of the claims were examined together. In contrast, the present restriction requirement subjects the Applicants to the added financial burden of prosecuting Claims 1-74 in separate proceedings.

Accordingly, it is respectfully requested that the requirement to elect a single group be withdrawn, and that a full examination on the merits of Claims 1-74 be conducted.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
